

# Software Developer (m/f) in Freiburg

**cytena** GmbH is a fast growing spin-off from the University of Freiburg.

## **Our Mission:**

We believe that automation and microtechnology will bring the understanding and control of individual cells to a whole new level and empower our customers to serve patients faster and better.

Our products enable our customers, like Novartis and Bayer, to bring important drugs faster and more safely to the market.

## **Your Challenge:**

- Developing new products right from the start
- Continuing development of our new, interactive software for our laboratory instruments
- Optimization of the interactive UI, design and functionality. Our software is intended to create a joyful working experience.
- Bringing exciting new prototypes to life and working in close collaboration with our hardware developers
- Getting to know customers and developing new products for maximum customer benefit

## **Your Qualifications:**

- Degree in computer science, physics, math or similar
- 2 - 5 years professional experience preferred
- Experience in software development for devices preferred
- Very good knowledge and experience in C#, .NET and WPF
- Experience in test-driven (TDD) and agile software development preferred
- Experience in OpenCV and Emgu CV desired
- Experience in Matlab/Octave desired
- Good communication skills in English

**Do you want to** work at a young and dynamic start-up? Do you thrive by working on various tasks and like to work in a well-structured and organized manner? Do you like to work independently and embedded in a strong team?

Interested? Then send your comprehensive application, including your salary expectations and the earliest possible starting date, as a single pdf-file by e-mail to: [careers@cytena.com](mailto:careers@cytena.com).
