

Product Manager Global (m/f/d)

Freiburg im Breisgau, Germany

CYTENA is a young and fast-growing high-tech start-up dedicated to cutting-edge single-cell and liquid handling technology for Lab Automation in Freiburg. Since 2019 we are part of the CELLINK Group of Life Science companies.

CELLINK is a global leader in developing and delivering life science solutions, equipping hundreds of labs and thousands of scientists worldwide with cutting edge technologies that fuel groundbreaking scientific breakthroughs.

We are driven by three mantras: **passion, inspiration** and **persistence**.

Our mission: We believe that automation and microtechnology will bring the understanding and control of individual cells to a whole new level and empower our customers to serve patients faster and better. Our products enable our customers, like Novartis and Bayer, to bring important drugs faster and more safely to the market.

Do you want to join a company that develops sophisticated, cutting-edge products for the life science industry? Do you love to work in an interdisciplinary and international team of highly skilled, young, and energetic people? Make an impact, and come to sunny Freiburg to join us building the lab instruments of the future!

Job Description

We are looking for a **Product Manager Global** who is passionate about new technologies that bring more automation and efficiency into biological laboratories. The ideal candidate is an analytical team player who will own an innovative product, helps developing the marketing strategy, and works cross-functionally with our team of engineers and applications scientists to complete the product roadmap and discover new opportunities.

Responsibilities

- Manage a new innovative laboratory instrument with applications in high-throughput screening, cell-based assays, and NGS library preparation
- Active participation in product development and preparation of market launch
- Development of tailored messages and value propositions for the relevant customer groups
- Identification of business opportunities, market trends and implementation of customer requirements based on feedback from pilot customers and our global field force
- Create business models and analyze competitive landscape
- Monitoring of pricing, product positioning, and sales targets
- Perform first customer product demos and train our team of sales and field application specialists
- You will directly report to a member of the c-level

Qualifications

- MSc or PhD in life sciences with focus on cell / molecular biology
- 2+ years experience in sales, application support, or product development/management

- Experience with laboratory instruments for microplate handling and cell-based assays and/or NGS library preparation preferred
- Excellent English communication skills and ability to work in interdisciplinary teams
- Passionate about technology and laboratory automation
- Willingness to travel nationally/internationally (30-40 %)
